“Tower’s directories are a virtual Who’s Who of the New Hampshire business community.”

Office of Business & Industrial Development

“It’s true, Tower really was on the information superhighway when it was just a dirt road! And we still update our information in an old fashioned way – we actually call and verify contact names, titles, addresses and size of company. This helps you better focus in on opportunities that are truly worthwhile. You won’t find this old fashioned research put forth by any of the internet search engines or even the phone company. It’s also why we can offer our granite guarantee: Tower’s directories meet your expectations unconditionally, or we pay UPS to pick them up at our expense.”
